Achievements

Best Project of the Year 2019   GGSIPU Delhi

I had created a MERN Application in college Project. My application is related to student results. Student can check their Academic and Personal Details via my Application. I had participated in the University Project competition and won the best project in my College.

NTSE 2010   NTSE Delhi

I had given and cracked this exam in 8th Class. I had received a scholarship from NTSE.

Interests

Developing in Java, MERN, MEAN, and Python

Never Give Up!!! Because Everything is Possible in Coding or My Life. I have happy when I solve complex bugs in complex Algorithms.Coding is my Passion. I like coding challenges in coding and app development. I had started programming with Java. I had learned Data Structures and Algorithms with Java, C++, and JS. I had learned Java SE, Java EE, JS, Angular.js, React, Redux, Node.js, Express, MongoDB, PlSQL, Python, Python-Django, and Machine Learning from a High Experienced Oracle Developer. After learning these popular technologies, I had built applications in these learned technologies. Java and JavaScript are my favorite programming language. I want to build more valuable, innovative and productive products using my coding skills.

Problem Solving

I am an engineer. Problem Solving is my duty. Everything is possible in Life. I focus on solution, no problem. I solve coding algorithm problems and application errors with learning deep knowledge.
